The Center for Project-Based Learning was launched in January 2016 at the Association of American Colleges and Universities (AAC&U) annual meeting. The Center provides support to college and university faculty and administrators looking to implement, improve, evaluate, or integrate project-based learning efforts on their campuses and supports the development of expertise and excellence in project-based pedagogy on the WPI campus. The Center offers a range of products and services, including:

- **The Institute on Project-Based Learning**—an intensive, multi-day workshop hosted on the WPI campus where teams of faculty and administrators create action plans to advance project-based learning initiatives on their own campuses. Teams work with experienced faculty coaches and workshop facilitators, while learning from project-based learning practitioners and from efforts at other campuses. Visit wpi.edu/+2018institute to learn more about the 2018 Institute to be held June 20-23, 2018.
- **Custom workshops on your campus**—workshops offered to groups of different sizes and compositions, and tailored to your institution’s interests, goals, and level of experience with project-based learning.
- **Consultation visits by project-based learning experts**—help for your leadership team, curriculum committee, department, or interdisciplinary group to set goals for project-based learning and make progress toward those goals.
- **Support for project-based learning at WPI**—through workshops and seminars, advising materials, mentoring, and Faculty Fellowship opportunities, includes a range of activities that engage WPI faculty broadly in the work of the Center.

"The two-day project-based learning workshop delivered by WPI on our campus was an important catalyst for discussions, collaborations, and forward motion for our college. The opportunities for focused, productive discussions both within and across departmental teams were invaluable."

Laura Hahn  
Director of Academy for Excellence in Engineering Education  
University of Illinois at Urbana-Champaign

For more information about the Center and how WPI can assist in advancing project-based learning initiatives on your campus, visit wpi.edu/+projectbasedlearning.
Worcester Polytechnic Institute, Worcester, Massachusetts

Worcester Polytechnic Institute is a private university located in the heart of New England. WPI was founded in 1865 with the mission of providing an education that balances theory and practice. WPI’s pioneering undergraduate project education model provides students with extensive experience extending their classroom knowledge through undertaking hands-on projects with real-world impact. With over 40 project centers across the globe, students also have the opportunity to make a difference through project work in communities around the world.

WPI’s 80-acre campus is centrally located in Worcester, MA, New England’s second-largest city. Worcester is at the crossroads of several major routes, making it accessible from several surrounding airports, including Logan International Airport in Boston, T. F. Green Airport in Providence, RI, Bradley International Airport in Hartford, CT, and Manchester Airport in Manchester, NH. There is also an airport in Worcester with flights to and from a limited number of cities. For more information, visit wpi.edu.

"WPI conducted an intensive workshop on project-based learning on our campus that served as a very effective catalyst, providing the information, guidance, and encouragement that we needed."

Beverly Kahn, PhD
Professor of Political Science
Farmingdale State College, State University of New York
