## Problem: A Call for Education

Communities want help with Early Childhood Development, as educated youth will lead to a better future. The Cape Town Project Centre wants to learn and contribute to ECD.

## Opportunity: Answering the Call

Create a foundation and network of Early Childhood Development (ECD) knowledge and partners to be used by the Cape Town Project Centre.

## Big Ideas: Building the Groundwork

Create a foundation by working with ECD in a variety of communities.

Build a relationship with the communities by assisting with their immediate needs.

Integrate ECD with a water, sanitation, and hygiene facility in the informal settlement of Langrug.

Learn from Kiddies College and help with their record keeping and payment systems.

## Partners

Kiddies College  
Preschool

Community Leaders  
and Caretakers in the  
Langrug Community

The Centre for Early  
Childhood  
Development

## OUTCOMES

Another Big Connection!  
CECD works with CTPC

Support  
Partners  
for ECD  
Progress

## Methods: An Informed Approach

Worked with a variety of stakeholders dealing with ECD in different communities to gain knowledge.

Researched registration, record keeping, and funding opportunities.

Utilized Shared Action Learning: interviews, meetings, & hands on activities with children, crèche leaders, & caretakers.

## Accomplishments: BAM!

With our partners, we put our innovative solutions into action while developing a working knowledge of ECD, represented in our website. We created a long-term relationship with an NGO to continue to work with the Cape Town Project Centre in future years.
