

Making Space for Projects in Courses
Kris Wobbe
Institute on Project-Based Learning

1. What are your biggest concerns/constraints about fitting projects into your courses?
2. Is there course content I can delete or reduce? Are there general principles I can stress more and have students work on examples in projects?
3. What ideas do I have for how to reduce the time it will take to develop a project for one of my courses?
4. What suggestions do I have for utilizing projects without unduly burdening my students?
5. How can I make sure that my project is at the right level for my students?
